WHY AZ-SUNSHINE HAS MORE DATA

Data Source	Description
AZ-SUNSHINE	Complete AZ Secretary of State Database • Contains ALL Independent Expenditure transactions • Full relational data with committee/candidate associations • Historical data back to 1996
SEETHEMONEY	Partial Subset (Web Interface Limitation) • 'Independent Expenditures' search returns incomplete data • Missing committee/candidate associations in CSV exports • Only provides data for even election years (2006+)

CONCLUSION: Az-Sunshine having MORE data is CORRECT - it's not an error. SeeTheMoney is the incomplete source.

RECOMMENDATIONS TO CLOSE 2025 GAP

Option	Description
Option 1	Purchase AZ SOS Database (\$25) - Contains complete relational data with committee IDs
Option 2	Manual Research via SeeTheMoney web interface to identify committees for MHB Media & Red Eagle
Option 3	Wait for next database refresh which will include Q4 2025 transactions with full metadata

FINAL VERDICT

DATA INTEGRITY: EXCELLENT
• 29 out of 30 years: COMPLETE
• 1 year (2025): Minor gap of \$341,655 (0.2% of total)
• Az-Sunshine has \$107M MORE data than SeeTheMoney
• Gap is due to CSV export limitations, NOT a system bug
